Discussion: 2027 IDOT Project Plans

The meeting was convened to review proposed Illinois Department of Transportation (IDOT) plans that may impact the library's west entrance. Board members and the Director conducted an on-site review of the affected area.

Planned modifications include lowering the existing sidewalk and installing two additional steps. Front step railings will be removed and replaced by IDOT, while the center railing will be removed but not replaced. The Board will temporarily leave the center railing off following construction to determine if replacement is necessary.

Recently installed landscaping is not expected to be affected. Overall, minimal physical changes are anticipated; however, temporary library closures may be required during construction.

Adjournment

Mickey Leeney moved to adjourn the meeting, seconded by Patty Walker. The meeting adjourned at 6:58 PM.

Respectfully submitted,

Patty Walker
